Profile

My name is Daniel Lucas, and I am a software engineer focused on front-end development. I have extensive experience in VueJs, NuxtJS, and a strong foundation in UI and styling with CSS and its variants. I am a sociable person, and I particularly enjoy teaching. My goal is to lead a team of developers in the future, to be able to help people around me while doing what I truly love. Currently, I study every day when I'm not working or attending college, and I have an extensive collection of certificates from various courses because knowledge is something I highly value.

Languages

Portuguese

English

Education

Bachelor's Degree

2018 – 2023

Faculdade Pitágoras - Electrical Engineering

Experience

Freelancing, 5 Months (08/2022 - 12/2022)

Joined parallel projects to gain experience. One project beign an Invoice Software and the other beign an Discord Bot that involved an AI.

Braip Intermediações e Negócios LTDA, 12/2022 - Present

As a front-end developer at Braip, I specialize in VueJs, Vuex, Nuxt, and Docker. I create captivating e-commerce screens and employ Agile methodologies. My expertise in CSS, Vue, and UI/UX knowledge ensures visually appealing and functional user interfaces when dealing with landing pages, courses pages and refactoring old pages.
